 1. Finance report for 2021
 2. Budget Report for 2022
3. President's Report
 1. St Vrain Greenway trail extension is in the land acquisition and design phase and construction in 2023; we are in contact with the city departments and monitoring progress; we will have input into the project as it progresses.
 2. Eagles - range restriction have just been imposed by the City of Longmont; shooting hours 10 am to 3 pm; this was a surprise as Mike Sherman was ok with just removing some west course targets; the good news is they should be lifted March 15th; Mike Sherman reported 9 eagles counted in January in the cottonwoods off the SW corner and the city observers reported 12 more recently.
 3. A new St Vrain website is being implemented to support online payment; there were some challenges with the club tax id but they have been solved.
 4. 2022 work fee or workday obligation will be in force.
 5. Practice range and course 3D targets were replaced as needed in 2021; we inventory 3D and block targets and inserts in the shed; course targets will be inventoried for replacement; Rinehart experienced significant delays in 2021; we want to get an order going asap.
 6. Broadhead target pits: The broadhead practice targets are very popular. Broadhead block targets and centers were replaced in 2021 as needed; same plan for 2022; we purchased Matrix broadhead targets in 2021. We may get more in 2022, they hold up pretty well.
 7. We have no information about resuming Longmont city archery classes for 2022.
 8. The club purchased a used DR Tow-behind mower and a DR walk behind mower in 2021.
